1. Company Overview

Adeptus Commercio Trading Company W.L.L. (ACTC) is a multi-discipline general trading and contracting company based in the State of Kuwait, delivering integrated project support across the oil and gas, government infrastructure, commercial and private development sectors.

Our organisation combines in-house divisions for civil and infrastructure construction, building and MEP works, equipment and logistics, manpower supply, cleaning and facility services, and oilfield products and services delivered with our international principal in the Sultanate of Oman.

This integrated model allows ACTC to mobilise complete execution packages under a single point of responsibility, with transparent documentation and a safety-first site culture aligned with Kuwait oil sector requirements.

2. Vision, Mission and Values

Vision

To be recognised among the most dependable integrated trading and contracting partners in Kuwait, supporting the goals of Kuwait Vision 2035 through safe, compliant and quality execution.

Mission

To deliver civil, MEP, logistics, manpower and oilfield support scopes with transparent documentation, competitive cost and on-time completion, treating every assignment as a commitment.

Values

Safety first. Integrity in execution. Reliability in delivery. Partnership with our clients, principals and workforce.

3. Legal Standing and Registration

Commercial Registration

CR No. 453626

Ministry of Commerce and Industry, State of Kuwait

Trade License

License No. 2026/12086

Status: Active

Legal Form

Company With Limited Liability (W.L.L.)

Registered activity: wholesale and retail trading, with contracting service divisions

Registered Office

Jaleeb Al-Shyoukh, Block 8, Building 613
Mezzanine Floor, Office 52, Farwaniya, Kuwait

Registration certificates, license copies and supporting documents are available immediately upon request for client prequalification.

4. Integrated Divisions

One organisation, six execution arms mobilised together or independently per project scope.

Civil and Infrastructure

Roads, drainage, overpass corridor works, buildings and earthworks.

MEP and Maintenance

Electrical, mechanical, HVAC, carpentry, painting and 24 hour service.

Equipment and Logistics

Heavy fleet, lowbeds, water tankers and rig-site logistics.

Manpower Supply

Skilled and semi-skilled workforce for projects and shutdowns.

Oilfield Products and Services

API and ASME certified equipment with our principal TGI LLC, Oman.

Cleaning and Facilities

Cleaning staff, equipment and facility services across Kuwait.

5. Civil and Infrastructure: Roads and Networks

Roads and Asphalt Works

Access roads, site pavements, asphaltting and line marking.

Storm Water and Drainage

Culverts, site drainage, containment berms and water channeling.

Overpass and Corridor Works

Civil support works along highway and interchange corridors.

Earthworks and Sewerage Networks

Mass excavation, cut and fill, grading and deep utility pipelines.

6. Buildings and Vertical Construction

Residential Compounds and Villas

Premium villa compounds with full siteworks, landscaping and phased handover, including large multi-unit developments.

Commercial and High-Rise

Investment buildings and towers, structure and fit-out up to B+G+14.

Institutional Works

Mosques, educational facilities and government fit-outs.

7. Oil and Gas and Industrial Civil Works

Drilling Pads and Rig Site Civil

Site clearing, leveling, access roads and rig mat foundations.

Security Fencing and Perimeters

Perimeter security, razor wire concertina and access control for sensitive sites.

Pipeline Corridor Civil Support

Civil support for upstream and downstream pipeline corridors.

Prepared for Oil Sector Standards

Work planning, PPE regimes and documentation structured for compliance with KOC HSE Management System and KNPC contractor requirements, with journey management for oilfield access.

8. Electrical and Power Infrastructure

Tower Foundations and Erection Support

Bored piles, pile caps, stub setting and structural erection support.

Substations and Cable Networks

Underground cable laying, ducting and distribution systems.

Structural Concrete

Foundations, pile caps and sulphate-resistant applications.

Street Lighting and Second-Stage Electrical

Lighting pole installation with foundations and handhole boxes, uPVC duct networks, cable termination, MCC installation, testing and commissioning.

9. MEP and Building Maintenance

Electrical Works

Commercial and residential installations, cable laying, panel boards, fire alarm, industrial and substation works.

Mechanical and HVAC

Steel structural works, chiller and air conditioning systems, firefighting works and MS pipe lines.

Carpentry, Gypsum and Finishing

Interior and exterior carpentry, ceiling and roof framing, doors, windows and furniture works.

24 Hour Emergency Service

Fully stocked service vehicles on standby for electrical, plumbing and air conditioning emergencies.

Team experience in building maintenance and facility management since 2002: retail brands, restaurants and cafes maintained under our own standard operating procedures.

10. Equipment and Logistics Division

Heavy Fleet

Dump trucks, lowbed trailers for equipment relocation and crane-mounted flat trucks deployed across the state.

Water Tankers

Tanker fleet for continuous dust suppression and site water supply at rig sites and construction corridors.

Preventative Maintenance

Preventative-first fleet maintenance program supporting 24/7 availability and rapid mobilisation.

Journey Management

Vetted operators with journey management training for KOC oilfield access and remote locations.

11. Plant, Equipment and Vehicle Fleet

Representative Fleet Categories

1. Mobile and truck-mounted cranes
2. Excavators and backhoe loaders
3. Wheel loaders and dozers
4. Dump trucks and transit mixers
5. Rollers, breakers and telehandlers
6. Forklifts and skid steer loaders
7. Graders and compaction plant

Transport and Support Vehicles

Buses and crew transport, double cabin pickups, vans, water and fuel tankers and heavy trucks. Owned and hired plant is mobilised per project demand, with expert handling of heavy and industrial requirements.

12. Manpower Supply Division

Specialized Recruitment Fields

1. Mechanical projects
2. Shutdown and turnaround projects
3. Operations and maintenance projects
4. Civil projects
5. Hotel and catering recruitment
6. Information technology projects

Placement Models

Contract employment, contract-for-hire and direct hire of managers, engineers, supervisors, skilled trades, operators, drivers and general workforce, sourced locally and from overseas markets including India, Pakistan, Sri Lanka, the Philippines, Nepal, Egypt, Indonesia, Thailand and Bangladesh.

Our policy: hiring only the best. Screening and mobilisation handled end to end, reducing client administrative and travel burden.

13. Cleaning and Facility Services

Our Specialties

Cleaning staff, cleaning materials, cleaning equipment, facility cleaning services, and boiler and chiller cleaning programs for residential, commercial and industrial premises.

Service Areas

Jaleeb Al-Shyukh, Ahmadi, Fahaheel, Farwaniya and Mangaf, with waste collection support and mechanised sweeping and scrubbing equipment.

14. Fabrication, Erection and Portable Cabins

Structural Steel Fabrication and Erection

Fabrication and site erection of steel structures, sheds and frames for commercial and industrial facilities.

Portable Cabins and Site Offices

Supply and installation of portable cabins, site offices and accommodation units for project sites.

15. Our Principal: Techno Gears Industries LLC, Oman

ACTC is the authorized representative of Techno Gears Industries LLC (TGI), Rusayl Industrial Area, Sultanate of Oman, for the State of Kuwait.

TGI is an engineering, steel fabrication and machining company serving the oil field and petrochemical sector, with a full range of products, refurbishment and recertification services and site support for oil and gas clients across the Gulf.

Principal Credentials

- ✓ API 6A, API 16A and API 4F monogram licenses
- ✓ API Specification Q1 registered quality system
- ✓ ASME U and R stamps: pressure vessels up to 3,000 PSI
- ✓ ISO 9001:2015, ISO 14001:2015, OHSAS 18001:2007
- ✓ PDO (Petroleum Development Oman) approved products
- ✓ JSRS certified supplier, Oman Ministry of Oil and Gas

16. Oilfield Equipment and Fabrication (TGI)

Tanks and Skids

Skid mounted water, fuel and diesel storage tanks in rectangular and circular shapes with formed dish ends, sandblasted with coatings applied per requirement, plus master skids and structural packages.

Fabricated Oil Field Equipment

Circulation tanks, mud systems, brine tanks, NCP and cummi trailers, pressure vessels, degassers, suction, intermediate and shaker tanks, trailer mounted pipe bins, tool baskets, BOP trailers and filtration units, customised to client needs.

Also: pipe spool fabrication up to 24 inch diameter, pipe supports, racks, skids, Tekla modeling, blasting and painting.

17. Rig Camps and Hoist Accommodation (TGI)

Complete Turnkey Camp Solutions

Fly camps and hoist location accommodation for the oilfield sector, up to 120 man general arrangements:

1. Sleeper units and one man accommodation
2. Ablution, laundry and kitchens
3. Dining, cold store and dry store
4. Medic room and radio room
5. Rig site offices and training modules
6. Mosque, gym and recreation

18. Refurbishment, Recertification and High Pressure (TGI)

Valve and BOP Services

Repair, refurbishment and recertification of annular and ram BOPs, choke manifolds, surface safety valves, pup joints, drill pipe elevators and portable well test systems, with third party surveillance and recorded pressure tests.

High Pressure Line Fabrication

Process piping and high pressure circulation lines, stand pipe manifold fabrication and testing to 5,000 PSI, and choke manifold line upgrades from 5,000 PSI to 10,000 PSI service.

19. Principal Certifications (TGI LLC, Oman)

API monogram, API Q1, ISO, OHSAS, ASME, National Board, PDO and JSRS certificates of our principal. Certificate copies are available immediately upon request.

20. Project References: Buildings and Infrastructure

Project	Client / Partner	Scope of Work	Period / Status	Value (KD)
Jabriya Villas Residential Compound, 180+ units	Private developer	Civil construction and MEP works, siteworks and landscaping, phased delivery	Completed	On request
Al Mahboula Investment Compound, 2 twin buildings B+G+14	Private developer	Structural construction and MEP execution and fit-out	Completed	On request
Taimaa Mosque	Private / Awqaf	Full construction and MEP works	Completed	On request
Al Fintas Commercial Complex	Private developer	Civil and MEP works	Completed	On request
Storm water networks and overpass corridor support works	MPW projects	Infrastructure, drainage and civil support works	Completed	On request

Completion certificates and client contact details are available upon request. Contract values are disclosed to prequalification committees on request.

21. Project References: Oil and Gas and Industrial Support

Project	Client / Partner	Scope of Work	Period / Status	Value (KD)
Az Zour Refinery Project, EPC 059 (KIPIC)	EPC consortium	Manpower and site services	2021	On request
Gas Plant BS 171 (KOC)	Saipem	Site support and skilled manpower	2016 to 2017	On request
LNG Tank Project, Mina Al Zour	SRG	Site services and manpower	2018	On request
LNG Mina Al Zour and Airport Project	Combined MAFCO	Manpower and equipment support	2018 to 2019	On request
LFHO Abdally, Salam Base, HAHC Jahra Hospital (MCC), NRP Mina Al Zour	Al-Ahlia Integrated	Manpower supply and site works	2017 to 2021	On request
Temporary site offices, Wafra Joint Operations	FAWAZ Trading and Eng.	Site establishment works	2020 to 2021	On request
University dewatering works and WTE equipment supply	Action International	Dewatering and equipment supply	2020 to 2021	On request
Bayan Palace maintenance works	Construction Group	Maintenance works	2018 to 2019	On request
Retail brands maintenance (Zara, Home Zara, Bershka)	AZADEA Group	MEP and facility maintenance	2017 to 2021	On request

End users and project partners across ACTC works and services, directly or through project consortiums. Reference letters available upon request.

23. HSE and Quality Commitment

Safety Without Exception

HSE-first site culture with daily toolbox talks, mandatory PPE standards and incident reporting, structured for alignment with KOC HSE Management System requirements.

Quality in Execution

Inspection and test plans enforced across project phases, with material verification and independent QA/QC review of the works.

Documentation Discipline

Complete documentation trails: method statements, permits, test records and as-built handover packages for full auditability.

Trained Workforce

Well trained and well motivated employees, inducted per site requirements, delivering consistent service quality.

24. Why ACTC

Integrated Delivery

Civil, MEP, equipment, logistics and manpower mobilised under one responsible contractor.

Verifiable References

Project references across KIPIC, KOC and ministry environments, documents on request.

Certified Principal

API and ASME certified oilfield products and services through TGI LLC, Oman.

Rapid Mobilization

Fleet, camps and workforce mobilised quickly for remote and oilfield locations.

Clean Compliance

Registered, licensed and audit-ready, with transparent documentation.

Ready to Support Your Next Project

We welcome client audits, prequalification reviews and site visits.
